EDUCATION

Arizona State University, Tempe, Arizona, USA.

Master Of Science in Computer Science.

Jan 2022 – Dec 2023

GPA: 3.8/4.0

Vellore Institute of Technology, India.

Bachelor Of Technology in Computer Science.

Aug 2017 – Aug 2021

GPA: 3.9/4.0

TECHNICAL SKILLS

Languages: C, C++, Java, Python, R, C#, HTML, CSS, Angular JS, PHP, ASP.Net.

Software Process: Agile Methodology, SDLC, JIRA, DevOps.

Tools & OS: Spring, VS Code, Android Studio, Putty, Selenium, Power BI, Tableau.

Databases & Cloud: AWS, Azure, MongoDB, SQL, MySQL, Oracle, PostgreSQL.

Certifications: Aws Solutions Architect, Azure Fundamentals, Google Analytics.

PROFESSIONAL EXPERIENCE

GE HealthCare

Seattle, WA.

Software Engineer

Jun 2024 – Present

- Spearheaded the migration of critical applications from Java 8 to Java 17, improving system performance and maintainability by 20%.
- Collaborated with the data ingestion team to design and implement components that streamline the processing of HL7 messages, enhancing interoperability across healthcare systems.
- Multitasked with the core team to implement data services adopted by multiple hospital teams, establishing a unified structure across 140 facilities
- Develop a new operational tile for Command Center, enhancing hospital operations and supporting better patient flow management and decision-making by 30%.

Technologies: Java, Spring Boot, SQL Server, REST, HL7, RabbitMQ, Hazel Cast, Angular JS, CI/CD, Git.

Samirian Chemicals Inc

Campbell, CA.

Technology Solutions Engineer

Mar 2024 – Jun 2024

- Conducted data analysis and built company website to improve sales by 15% using various tools and technologies.
- Developed end-to-end applications in NetSuite, including scripting, designing workflows, and automating 10 processes to enhance operational efficiency.
- Collaborated with cross-functional teams to gather requirements, design solutions, and implement technology-driven initiatives to support business objectives.

Technologies: Python, Tableau, Microsoft Power BI, SQL, NetSuite, React, Html, JavaScript, Suite Script, Fabric, Agile.

Arizona State University

Tempe, Arizona.

Graduate Teaching Assistant

May 2023 – Dec 2023

- Designed Data Visualization course to develop course materials, assignments, for a class with 200 students.
- Coordinated with university marketing team to bolster university enrollment by implementing design principles to create visually impactful visualizations; resulted in an 80% increase in data comprehension.
- Facilitated students by providing guidance on tools such as Tableau, Power BI, resulting in an impressive 99% success rate.

Technologies: Python, Tableau, Microsoft Power BI, SQL, R, Statistics, Exploratory Data Analysis, Agile.

Nav Tech Electronics

Hyderabad, India.

Software Engineer

Jan 2020 – Dec 2021

- Engineered an efficient dashboard using Java and Spring, enhancing the visibility and management of test results, which improved the testing process efficiency by 30%.
- Implemented CI/CD pipelines using DevOps practices to automate software build, test, and deployment processes.
- Deployed and managed applications using AWS services to ensure high availability and scalability.

Technologies: Java, Spring, SQL Server, REST API, AWS, JavaScript, HTML, DevOps, RabbitMQ, GitLab, CI/CD.

ACADEMIC PROJECTS

Course Registration Gateway

Jan 2022 – May 2022

- Developed a robust Course Registration web application with Java and Spring Boot, integrating real-time availability and recommendations. Leveraged Azure for scalable deployment and secure data management.

Technologies: Java, HTML, CSS, Bootstrap, Angular JS, Azure, PostgreSQL, MongoDB, Spring Boot, Agile, Bitbucket.

Bridge Safety Monitoring System

Aug 2020 – Dec 2020

- Transformed a predictive model using machine learning to assess bridge safety, achieving 98% accuracy.

Technologies: Python, Flask, Linear Regression, Gaussian Regression, Android Studio, Java, HTML, CSS, JavaScript.

Autonomous Banking Chatbot

Jan 2020 – Apr 2020

- Created an MVC-based banking chatbot system, capable of answering over 100 queries and scaling with AWS.

Technologies: Java, HTML, CSS, Angular JS, Spring Boot, Microservices, AWS, CI/CD.
